

# Sing To Me

[Anna Calvi](#)

Out of the dust, out of your voice  
Stopping the cars as you run past  
We are in love, we are in love with you  
Sing to us, beautiful one  
Got on your skin, colder than night  
The last of the one, the one we divide  
Lying so still, lying so still here  
Sing to me, beautiful one  
Fill me up  
Oh, fill me whole  
Oh, tear my throat out to hear yours  
So sing out loud  
Ooh...  
Ooh...  
Ah ah ah ah...  
Ah ah ah ah...  
Ah ah ah ah...  
Ah ah ah ah... And still...  
Sing to me, beautiful one
