

Waterworld

Handsome Boy Modeling School

Advisory - the following lyrics contain explicit language:

For those that know me
For those that know me
For those that know me
For those that know me, indeed I like to flow Authentically raw wit it, see I augmented this industry
To submit to my will, all attempts to limit me
Can kneel, peel caps wit ill raps
Nothing convenes here till your camp gets smeared like pap What you tryin' to tell me, skills never found me
Workin' for peanuts amongst jelly MC's, really ain't my steez
Peep game, I plot on different ways to make these styles
Ricochet through main frames The day-to-day theme is turn these fake teams gangrene
My main vein's the only thing about me mainstream
You doubt me like the foes of Noah, embarkin' in this Ark
The soul controller, while fools caught up in this Del used to blow up You're inundating wit the out-dated
See all of y'all fall when this cascade hits
Yo D, watch these watered-down clowns get drowned
And lounge sound broken down in Cuba tryin' to build ships off shit they bit I spit that major play saliva
Taylor-made for cypher sole survivor
Pay the piper if you plan to go inside my covenant
Better come in two's, matta fact come a crew to get you back Executives, we wet you wit the hymns that leave
you and your man
Packin', attackin' wit verbal cataclysms
Leavin' the average rapper drenched and grab a trench
Guard against my El Nino lingo
A labyrinth of keen flows, concealed within the single This is Waterworld
For those that know me, indeed I like to flow
Waterworld
For those that know me, indeed I like to flow This is Waterworld
For those that know me, indeed I like to flow
Waterworld
For those that know me My scripts consist of H₂O, hip hop and oxygen
I flip commission doctrines that make me Shake-Speare's pier
Upon this here tear I fear not

Killin' furious wit the superior onslaught
 On top of this isle solo, like Gilligan wit a million styles
 To throw yo' way wit capital A
 We make waves, causin' tsunamis to your armies
 Splashin' like the cracken on clash of the Titans, writin' calmly
 Call me Aquarius, each full page a new age
 I'm on a crusade to ranter your parade
 See 'Core is more than three-quarters of what this rap world secure
 So this is Chinese water torture for MC's to endure
 As I restore this reservoir wit my repertoire of metaphors
 Step into the 'Core, better have your life insured
 For supernatural disasters, I'm quick to cast a flame
 To your astral plane, it's bitch-made, get played like Canasta
 Waterworld
 For those that know me, indeed I like to flow
 This is Waterworld
 For those that know me, indeed I like to flow
 Waterworld
 For those that know me, indeed I like to flow
 This is Waterworld
 For those that know me
 What's an MC without concepts
 I speak easy comin' to offset your plumbing
 Like leaky faucets, runnin' my dungeon wit aquatic contraptions
 The fifth fold's a fish bowl, kick hard as contractions
 Wit skitzo-memos closed-captioned
 Your lip's sewed 'cuz hardest to your fraction try to test me
 You wouldn't tip-toe through Moses parted Red Sea, it's bound to collapse
 So now what makes you think the sound of these raps
 Is something different, I'm even pitchin' the kitchen sink wit comin' with it
 Liquefied rhymes rhyme wax
 It's time for jack-fakers to vacate, they take up space
 Like the Great Lakes, makin' a great case for me to hate
 Paint a picture clear as Evian, raps on tap like Savior Glover
 Undercover, peeps wonder, why he became the
 architect 'cuz none love us
 We spark the shit that makes the blood cometh
 Wash away your blockade plus your brigade
 Tryin' to sandbag clever words together
 The weather, the storm, porn's poured on cassette wit architect sweat
 In the cores of us form when he pass Tech-12's
 I delve deep in this abyss, inspect hell
 Tell a fallen angel to eat a dick if he gets pissed 'cuz
 This is Waterworld
 For those that know me, indeed I like to flow
 Waterworld
 For those that know me, indeed I like to flow
 This is Waterworld
 For those that know me, indeed I like to flow
 Waterworld
 For those that know me, indeed I like to flow
 Flow
 Flow
 ...
