Move On Song

Jamie Cullum

Pictures that I can't throw away
One life, tatooed
It's been several months and a day
Since we were referred to, as me and you
Even though your heart has gone dry
You won't deny me my dreams
At least that's what it seems
Now that you're gone
I had to write this move on song
Just for me ...
So I could figure where it went wrong
I channelled the soul of Elton John
The tea's gone cold and salty with tears
My friends beckon me out, for comeback beers
The truth be known like summer lawn
I've always been drawn to the clouds
Where I'll sit for hours
Now that you're gone
I had to write this move on song
Just for me ...

I resent you being a bitch
Self-preservation, oh, that little trick
I even had the guts to call time
On a wounded while and ragged rhymes
The truth be known like summer lawn
I've always been drawn to the clouds
Where I'll sit for hours
Now that you're gone
I had to write this move on song
Just for me ...
Right now
Love's gonna make me slam my fist right through the door
It's time now
To scatter myself in all those pieces on the floor
To serve me up some shots of my words
A joke on the lessons I've learned
That darkens my world
Now that you're gone

I had to write this move on song
Just for me ...
