

Plug In Baby

Muse

I've exposed your lies, baby
The underneath is no big surprise
Now its time, for changing and cleansing everything
To forget your love And my plug in baby crucifies my enemies
When I'm tired of giving, whoa
My plug in baby, in unbroken virgin realities
Is tired of living, ooh Don't confuse, baby you're gonna lose
Your own game
Change me, replace the envying
To forget your love My plug in baby crucifies my enemies
When I'm tired of giving, whoa
My plug in baby, in unbroken virgin realities
Is tired of living, ooh And I feel your loving, baby
And I've been in trouble, ooh
