

All I See Is You

Glenn Lewis

I remember when
I stood in this very place and I told you
I'm always there for you You understand we're better than anyone still I act the fool
When I know that you're the truth
I complicate when the simple fact has always been right here
Till the day right in front of my face When it's not the same
That the difference between love and lust ain't win or lose
But it's how you play the game [Chorus]
And I see your face
There's so many places I been
All I , all I see is you
Been so many places
And I see your face
All I , all I see is you I've been telling myself
All this time that I am ready
The same excuse I play it off when I'm with you
But I'm so much better when I'm with you Where to over guide
The rest is wasting time
I complicate when the simple fact has always been right here
Till the day you're right in front of my face When it's not the same
That the difference between love and lust ain't win or lose
But it's how you play the game [Chorus]
And I see your face
There's so many places I been
All I , all I see is you
Been so many places
And I see your face
All I , all I see is you The deepest places in my mind
In my dreams, when I close my eyes
We've been friends forever
Sometimes it's like we're together
When I tell myself
Thoughts of you make it harder
And it ain't nothing new
'Cause baby I know that it's you [Chorus]
And I see your face
There's so many places I been
All I , all I see is you
Been so many places

And I see your face
All I , all I see is you
