

# Cheap Love

Juice Newton

There you are a-standing  
With those teardrops in your eyes  
Telling me you're sorry for  
Things you've done Hear that same old story  
So many times before  
I know what you're doing  
And I know where you're sleeping at night I don't want your cheap love  
Don't want you coming around  
Don't you know that your cheap love  
Someday it's gonna tear you down  
Down, down  
Down, down, down, d-down, down, ooh Here I am a-waiting  
Like a fool I've always been  
Hoping maybe someday  
You will change The same old lies you tell me  
Are the same old lies you live  
I know what you're doing  
And I know where you're sleeping at night I don't want your cheap love  
I don't want you coming around  
Don't you know that your cheap love  
Someday it's gonna tear you down  
Down, down  
Down, down, down, d-down, down, ooh I don't want your cheap love  
I don't want you coming around  
Don't you know that your cheap love  
Someday it's gonna tear you down I don't want your cheap love  
I don't want you coming around  
Don't you know that your cheap love  
Someday it's gonna tear you down  
Down, down  
Down, down, down, d-down, down, ooh  
Down, down, down, d-down, down, ooh Cheap love  
Cheap love  
Cheap love
