

# Tell Me What You Want from Me

## Good Old War

Tell me why my love has got a gun  
Aimed at my heart  
I'm begging please just try and realize  
Baby I did my part  
Where do you want to go  
You've gotta let me know  
Tear me apart  
Forget my name

Maybe it's easier to live that way Ooh tell me what you want from me

Ooh tell me what you want from me  
Ooh tell me what you want from me  
Ooh tell me what you want from me  
I don't know why is worth the pain  
Is it better I feel something  
Someone else will do the same thing  
So there's no point in running  
Where do you want to go  
You've gotta let me know  
Tear me apart  
Forget my name

Maybe it's easier to live that way Ooh tell me what you want from me

Ooh tell me what you want from me  
Ooh tell me what you want from me

Ooh tell me what you want from me Tell me what you want from me

Tell me what you want from me  
Tell me what you want from me  
Tell me what you want from me  
Tell me what you want from me

Ooh tell me what you want from me  
Ooh tell me what you want from me  
Ooh tell me what you want from me  
Ooh tell me what you want from me
