

# C'est La Vie Way

## Wolf Parade

Why In your c'est la vie way  
Did you cry, cry, cry  
When you were listening to a mixtape from your friends? Do you miss them  
In your c'est la vie way  
More than you'd missed me if you'd stayed  
In the hemisphere I asked you to return from? Or maybe you can pull apart your mind  
Like if there's a Russian doll  
Inside another Russian doll  
You see it all in your c'est la vie way  
So I, I'll try and be a decent partner  
Try to keep the teardrops off your face  
Be kind enough to regard In your c'est la vie way  
In your c'est la vie way  
In your c'est la vie way  
In your c'est la vie way The ceremony was alright  
But like most ceremonies it  
Lacked a gravity that I  
Would have liked There were too many cameras out  
And the microphone gave out as she adjusted her gown  
So the crowd couldn't make out the first half of his busted vows  
You said if you ever leave me I will die  
I could have died it was so cheap  
Oh come on father set us free  
But our hearts fell apart anyway  
When we heard her say c'est la vie Oh yes our hearts fall apart anyway  
When we heard her say c'est la vie
