Jackie Jab

Swingin' Utters

Jackie Jab is looking fab. He's got a treble and a bass and a big tab. He's got oil in his hair from an arab and when he falls down, he falls smack dab. (Chorus) hey fellas, get him a cab, what's his name - jackie jab! Three square meals everyday, but nothing's square about the american way. his friends get off on Doris Day and he hasn't a clue what to say. (Chorus) hey fellas, get him a cab, what's his name - jackie jab!
(Bonnel/Koski/Wickersham)
