Pound It

Joey Lawrence

Got something of you, you won't believe it
And I tell you wanna do,
Cause it will leave you dripping, yeah!
And I got some crazy moves that I'm gonna drop on you
Just give me a chance to prove cause there is nothing
My love can't fix for you!
Just let go of your fear
No room for none of that here!
Just let go of your arms
And watch your body sore
Now it's the perfect time
And we're in the perfect place,
For me to grab your soul,
We're face to face, come on!
Chorus:
Put your body close to me baby
I'll put .. you can feel it
Move your hips don't try to conceal it
There you found it, now pound it
Make the flow personal, baby
Do it it right, you drive for more crazy
Let it go, it's not time to save it
There you found it, now pound it
Look at you know, I now you love it
I see the curves on your mouth, yeah!
You enjoy the rubbing
And we can do this all night long
Uhuu baby you know it's true
Come'on!
You just need to say the words!
There's nothing my love can't fix for you, can't fix for you!
Just let go of your fear
No room for none of that here!
Just let go of your arms
And watch your body sore
Now it's the perfect time
And we're in the perfect place,
For me to grab your soul,
We're face to face, come on!

Chorus:
Put your body close to me baby
I'll put .. you can feel it
Move your hips don't try to conceal it
There you found it, now pound it
Make the flow personal, baby
Do it right, you drive for more crazy
Let it go, it's not time to save it
There you found it, now pound it
Twist it, and turn it
Your joints will be burning
Roll it like thunder,
I'm coming up under!
Throw your head back as I come to attack!
You're shaking, we're making
The spot light we're taking come on!
Chorus: (x2)
Put your body close to me baby
I'll put .. you can feel it
Move your hips don't try to conceal it
There you found it, now pound it
Make the flow personal, baby
Do it right, you drive for more crazy
Let it go, it's not time to save it
There you found it, now pound it
