

# I'm Alone

## White Town

Stay with me till the clouds are gone  
Understand you're the only one  
I feel your closeness like a missing key  
You've got me all over you  
You're all over me I'm alone In the lay by we wait for cars to pass  
In the sunshine we always wait for dark  
In the classroom you avoid my eyes  
When you kiss me I can't hear you lie I'm alone
