The One

iiO

There's no doubt in my mind who you are
There's no thought other then yours
My heart felt like a rose in the graveyard
But you dug and I knew you you belongedYou found
What was profound
What was around
You and IYou're the one
Where I belong
I was alone
Till you came along
The one (2x)A romance fairy tale from the soul
I knew I wasn't alone in this world
You opened all the doors to the fortune
I'll give you all the loving in goldYou found
What was profound
What was around
You and IIt's true
All because you
Wouldn't let go
Of you and IYou're the one
Where I belong
I was alone
Till you came along
The one (2x)It's true
All because you
Wouldn't let go
Of you and IYou're the one
Where I belong
I was alone
Till you came along
The one (2x)My heart keeps beating a melody
The noise inside my heart sets me free
