City Lights

Nikki Flores

When the lights go down in the city, city, city, city
When the lights go down in the city
Nikki Flores, Nikki Flores
When the lights go down in the city
oh oh oh oh
I wanna be there In my city
oh oh oh oh
Yesterday, on a plane home from Chicago
know i'll be waking up with you tomorrow
I wish you could have been with me in New York
A city so sick, a tough back to follow
But it don't matter if I'm up in Seattle in the rain, so beautiful
But you're not here, here
Love it in London, UK got it running
But it doesn't feel the same if you're not here
'Cause I don't wanna be gone when another sun sets down on you, yeah
I wanna be home in my city, listen, all I wanna see is you
So baby
When the lights go down in the city
oh oh oh oh
When the lights go down in the city
All I wanna do is get next to you
I wanna be there in my city
With my baby
oh oh oh oh
To anybody who ain't where they got love
So far away from the one that you dream of
You understand what I'm saying, it's so tough
But keep your head up, keep you, keep your, head up
I feel the sunshine in L.A. downtown to Hollywood
I could be walking in Memphis, just trying to forget this
Boy, you know I would, if I could
When the lights go down in the city
oh oh oh oh
When the lights go down in the city
All I wanna do is get next to you
I wanna be there in my city
With my baby
oh oh oh oh

For anybody that love for the city say ayye, ayye, ayye
For anybody that love for their baby say ayye, ayye, ayye
When the lights go down in the city
oh oh oh oh
When the lights go down in the city
All I wanna do is get next to you
I wanna be there in my city
With my baby
oh oh oh oh
Ooh All I wanna do is be next to you
For anybody that love for the city, say ayye, ayye, ayye
For anybody that love for their baby say ayye, ayye, ayye
