Most Def

Onyx

Why do y'all always holler?
Yeah, aight
'Cause right now you're gonna vibe, money
Know what I'm sayin'? [Incomprehensible] New York style we just vibein'
Smoke mad L's, [Incomprehensible] wide open, we gone vibe
I ain't never had so many def threats in one year
But talk is cheap and it's comin' out my other ear
'Cause to show us there's a devil in hell, I'm still here to go first
But not least from the East or Revere
'Cause that's the last drew, now that ass is mine
You bit off more than you can chew, so now I gotta draw the line
See first of all we most definitely the number one
With a bullet [Incomprehensible] bullet category
And I got ESP you're barkin' up the wrong tree
But I'm not crazy, don't flatter me
Or I'll get arrested for assault and battery
And I can't stand cops, goddamn don't they annoy you?
I need the balls of steel, let's have a battle royal
The more the challengers, the more the merrier
No, not you use a amateur, just empty the register
And if it was a fifth, then we'd all be stoned
But if I don't drink and drive then how the fuck am I gone get home?
I can't stop smokin' weed 'cause I ain't no quitter
Since it's killin' my brain cells maybe I should reconsider
Nah, but all the non-fixture niggaz is you in here?
Most def, most def
We goin' all out
Most def, most def
Smoke blunts till we fall out
Most def, most def
True indeed
No quest, most def
Do you pack heat?
Most def, most def
Do you know the street?
Most def, most def
With the street you can beat
Most def-innate
True indeed

No quest most def
Fredro Starr, I'm mad as shit
I bust a nigga ask a nigga fuck him wit shit
I fuck him up good, just to smoke a L
C'mon, make my day, c'mon
Take me away and yo bullshit
We about to steal shit, while niggaz kill shit
So excuse me, I try smoke the nigga behind my back
Strength in you to pull me out down to the last barrel
Why the fuck you lookin' through the barrel?
George the Animal kick ass for the annual
You need to read the official nasty annual

Probably check Charley horses chest on your check
Black vagina's sex is set to set to shit
Bitch ass records
Why you even suppose to expect to sell
Official ass niggaz land in yo chest
Do you get cash?
Most def, most def
Do you think fast?
Most def, most def
Are you ready to blast?
Most def, most def
True indeed
No quest, most def
Onyx is the best
Most def, most def
'Cause our shit stay fresh
Most def, most def
Do we smoke stress?
You've got one, two, three emcees
That win high degrees and decease these G's
Notes, I'ma drop the boat that make emcees croat
Murder one wrote that's all you talk about rhymes and try to vote
Hope he don't resuscitate, tryin' to reproduplicate
The great, one Sunday rappers, I'm gonna annihilate
Getting up my weight and blue to take
None of my victims will recuperate
I got so much getaway style to be seen on any trial
On a drift to keep your heart up on a vibe that's been up, nigga
If a punk sorry excuse of an emcee step to sonny, it's R.I.Pieces
Believe it's the fetus, the one that's on Sunday
Cease the paper I got to get it, I'm addicted
Rappin' at sets I'm pickin' pockets the way you got ankles

Get me that lack of extinction
Smellin' those crispy pills, give me chills in my soul
Before I know, I'm out of control
Give me a joint to hold and learn asshole
Lights, camera, action where's a L, roll 'em
That's a roll 'em, I'll go solo, Squats a hoe so I'll go soon
I can't give a fuck at times when I struck no luck
But if I ever got jammed for a scheme, I'ma scrap
I'm goin' out like O.J. but I'ma stay on the man
Do you understand?
Most def, most def'
Word up
Most def, most def
Most def, most def
No quest, most def
Most def, most def
Most def, most def
