

Not Far Away

Pennywise

Hey, it's my time
To change my direction in life just by reading the signs
Hey, it's my turn
To see how many of my bridges will burn I feel somethin' breathing down my neck
Thought of tomorrow's got me like a nervous wreck
No time for sorrow it's your Judgment Day It's not far away, it's not far away
There's a shiny coffin for you to rot in and waste your days
It's not far away Hey, I got somethin' to say
Before the spirit of life starts slippin' away
Well I don't wanna end my life
Wishing for one more chance again to get it right I hear voices echo from the grave
Whispering softly it's your Judgment Day It's not far away, it's not far away
There's a shiny coffin for you to rot in and waste your days
It's not far away Hey, I want to rest in peace
Until this world is sick of hearing from me
Hey, get out of my way
I got a lot more livin' to do before my Judgment Day It's not far away, it's not far away
There's a shiny coffin for you to rot in and waste your days
It's not far away, it's not far away
I got a lot more livin' to do before my Judgment Day
It's not far away
