

Blood For Blood

Machine Head

One, two, three, four, go, go Oh, I bite the hand
'Cause this hand feeds off me
Devoid of emotion it lives to cheat
Ignorance is bliss and respect I gave you
Friend you did claim this
Too bad you can't speak the truth Give respect
'Cause the rule is blood for blood Beatings are what you'll inherit this time
Fist bait, your new name your pain is my shrine
Pulverize and break determination
Pleasure I negate
Your pain brings me salvation Give respect
'Cause the rule is blood for blood Oh, I was born of tension
Anger came from frustration
I can't back down from aggression
Some hard knocks taught me this lesson, yeah Give respect
'Cause the rule is blood for blood Give respect
'Cause the rule is blood for blood, yeah oh
