

# Queen of Sound

[Anna Aaron](#)

Out of the dawn I made a blueprint  
drawing it down from among the stars  
I gave permission to the floodlight  
but I wasn't really the one in charge  
When the air cleared I saw it moving  
moving with massive grace and speed  
I was alone in some extraordinary state of mind  
and then it went off  
Skin like a cloud but touches me  
like the sun like the son of God  
I am inside and out  
She's the lady of the millions  
she's the queen of sound  
she's the laser from the sky cutting through me  
I took the paper they had made him  
reading out every secret thought  
that trouble is always out there waiting  
falling is always possible  
Skin like a cloud but touches me  
like the sun like the son of God  
I am inside and out  
She's the lady of the millions  
she's the queen of sound  
she's the laser from the sky cutting through me
