

# What Have We Become (10th Anniversary Version)

## DC Talk

A preacher shuns his brother  
Cause his bride's a different color  
And this is not acceptable  
His papa taught him so  
It was love that he'd been preaching  
But this was overreaching  
The boundaries stretchin' further  
Than his heart would choose to go  
Like an angel with no wings  
Like a kingdom with no king  
What have we become?  
A self indulgent people  
What have we become?  
Tell me where are the righteous ones?  
What have we become?  
In a world degenerating  
What have we become? Speak your mind, look out for yourself  
The answer to it all is a life of wealth  
Grab all you can cause you live just once  
You got the right to do whatever you want  
Don't worry about others or where you came from  
It ain't what you were, it's what you have become  
Mom and Dad are fightin'  
As Rosie lies there crying  
For once again she's overheard  
Regrets of their mistake  
With Christmas bells a-ringing  
Little Rosie'd leave them grieving  
The gift she'd give her family  
Would be the pills she'd take  
An inconvenient child  
She wasn't worth their while  
(repeat choruses 1 and 2)  
What about love?  
What about God?  
What about holiness?  
What about mercy, compassion and selflessness?  
You know it's true  
He is there for me and you  
Doesn't matter what you do  
(repeat chorus 1)  
What have we become?  
Have we come undone?  
What have we become?  
Have we come undone?  
What have we become?  
(repeat chorus 2)  
Selfish...  
With selfish...  
Selfish people  
When you gonna learn?

Everyone of us  
Gathered 'round in trust  
What have we become?
