Delivering The Goods

DNA

Feelin' like we're ready to kick tonight
No hesitatin', bodies aching
Lookin' for some action, satisfaction alright
Chargin' vein pace as active
As one thundered solid proof
Megaton leviathan load ready to hit the roof
You better watch out and hold on tight
We're headin' your way like dynamite
Deliverin' the goods
Shake down rockin' boys
Crack that whip strap mean
Pulse rave air waves
Vitalizin' every place we've been
Stealin' your hearts all across the land
Hot blood, doin' good
We're gonna burn you with our brand
You better watch out and hold on tight
We're headin' your way like dynamite
Deliverin' the goods
Oh, we don't pull no punches
We aim where the crunch is
Bound to do the most damage to your brain
If you're lookin' for it mellow
You're nothin' more than yellow
Gonna do it again and again
We'll beat you to submission
So you might as well surrender
You gotta learn your lesson
'Cuz there ain't nobody here to defend ya
Faster, higher
Till it seems that we're gonna break
Shootin', further
Givin' more than you're ever gonna take
Leavin', your heads
Crashed out on the floor
Beggin' for mercy
Be careful or we'll do it some more
You better watch out and hold on tight
We're headin' your way like dynamite

Deliverin' the goods
