

Spaceman

Harry Nilsson

Bang, bang, shoot 'em up, destiny
Bang, bang, shoot 'em up to the moon
Bang, bang, shoot 'em up one, two, three
(One, two, three, four!) I wanted to be a spaceman
That's what I wanted to be
But now that I am a spaceman
Nobody cares about me Hey mother earth
Won'tchu bring me back down, safely to the sea?
But 'round and around and around and around
Is all she ever say to me I wanted to make a good run
I wanted to go to the moon
I knew that it had to be fun
I told 'em to send me real soon I wanted to be a spaceman
I wanted to be it so bad
But now that I am a spaceman
I'd rather be back on the pad Hey mother earth
Won'tchu bring me back down, safely to the sea?
'Round and around and around and around
Is just a lot of lunacy
(Yeah! Yeah!) 'Round and around and around and around and around
(So bring me back down)
'Round and around and around and around and around
Safe on the ground Hey mother earth
Won'tchu bring me back down, safely to the sea?
But 'round and around and around and around
Is all she ever say to me, yeah You know I wanted to be a spaceman
That's what I wanted to be
But now that I am a spaceman
Nobody cares about me Say, hey! You mother earth
You better bring me back down
I've taken just as much as I can
'Round and around and around and around
Is the problem of a spaceman Ah!
Ah!
...
