Forever

Idina Menzel

We thought we had it all
We thought we'd go unscathed
We thought our love
Would border on infinity
We thought that we were free
The world would disappear
We left ourselves wide open
And we had no fear
But forever came and went
Forever stumbled through
Forever had poor sense of time
And made a mess of me and you
Forever had us fooled
We fell for it again
And now time is standing still
Forever
Lying next to you
But you're already gone
And too much has been said
And it can't be undone
It's so hard to comprehend
When ashes fade to dust
I touch your water
And the iron turns to rust
So forever came and went
Forever stumbled through
Forever had poor sense of time
And made a mess of me and you
Forever had us fooled
We fell for it again
And now time is standing still
Forever came and went

We thought it had it all
We thought we'd go unscathed
We thought our love
Would border on infinity
But forever was a shame
It stole a little piece of us

To live up to it's name
Was really just too much
And forever came and went
Forever stumbled through
Forever had poor sense of time
And made a mess of me and you
Forever came and went
Forever stumbled through
Forever had poor sense of time
And made a mess of me and you
Forever had us fooled
We fell for it again
And now time is standing still
Forever came and went
(Forever, forever, forever)
Oh, I thought we had it all
(Forever, forever, forever)
Oh, oh, oh
I thought we had it all
(Forever, forever)
Every day 'til the end
(Forever)
You and me, oh, oh
(Forever, forever, forever)
