

# Not Forgotten

## Groove Armada

The winter wind blows out your tune  
I can breathe but I'm not alive  
The night sky wakes up your smile  
My heart strings swell out of tune  
The wind blows out of tune  
Whistles from green to yellow, blue  
Can't stop the world, reminded me of you  
My heart strings swell out of tune The night sky wakes up your smile  
With your eyes I see for miles and miles  
I can breathe but I'm not alive  
Can't stop the world reminded me of you Coz your hearts finished my shock  
My real thoughts are sold and bought Coz your hearts finished my shock  
My real thoughts are sold and bought I can't imagine why I should go on  
I can't continue solo for so long Coz your hearts finished my shock  
My real thoughts are sold and bought Coz your hearts finished my shock  
My real thoughts are sold and bought
