Here I Am

Breakaway

If you're lost, scared, you're not alone
Im always there to bring you home again
I'll never let you go
I see the light, theres life still in your eyes
No reason left to run away, to leave it all behindHere I am, here my love
Won't let you fall, wont let you down
If one day you break away
Here I am, right here I'll stay
Here I stayI know youre hurt and feel you're not alive
Like you're hanging on inside between
broken and holding on
I feel your heart as you whisper in the dark
Let us never be apart again, never let me goHere I am, here my love
Won't let you fall, won't let you down
If one day you break away
Here I am, right here I'll stay
Here I stayHere I am, here my love
Won't let you fall, won't let you down...Here I am, here my love
Won't let you fall, won't let you down
If one day you break away
Here I am, right here I'll stay
Here I stay
