

# Games

## Claire

### Verse 1

Sweet words with fingers crossed  
They seem so easy for you,  
Between the lines I see through you,  
We're so whatever

You're gone and I feel lost  
In all, in all these games  
With blurry eyes to scared to move  
Bit by bit I'm disappearing

### CHORUS.

And it's alright, and It's alright  
As long as I can be with you  
And it's alright, and It's alright  
As long as I can stay

### VERSE 2.

Those tempting looks again  
Did they mean a thing to you?  
But even if I'd fall for them  
We're still wherever

Afraid to lose control In all,  
in all these games  
With muted voice aloud inside  
Bit by bit I'm disappearing

### CHORUS

And it's alright, and It's alright  
As long as I can be with you  
And it's alright, and It's alright  
As long as I can stay

### BRIDGE.

I'm just a ghost in your eyes,  
Like I'm never really there  
Just one smile would make me happy,  
But you don't seem to care
