Theme From Tomorrowland

Cold Cave

The past becomes the future days
I feel an affinity with you
The future comes where the past decays
I feel an eternity with youI don't know where I'm coming from
And I don't care if I never ever return
And I don't know where I'm going to
And I don't care if I never ever get thereI feel an affinity with you
I feel an eternity with youYour past becomes
The future days
The future comes
Where the past decaysI don't know where I'm coming from
And I don't care if I never ever return
I don't know where I'm going to
And I don't care if I never ever get thereThe past becomes the future days
I feel an infinity with you
The future comes when the past decays
I feel an eternity with youI don't know where I'm coming from
And I don't care if I never ever return
I don't know where I'm going to
And I don't care if I never ever get there
If I never ever get there, if I never ever get there
