Another Day

Emily Featherstone

God gave us the greatest gift when His Son died on the cross
Now He wants us to share that gift with somebody else
But something always comes up, theres always something on
My friend , you might not have very long

Chorus:
You might not have another day to tell a loveone
You might not have another day to tell a friend
To tell a neighbor down the street
A stranger that you meet
You might not have another day

You say that you love them, so whats holding you back
When you have the greatest thing
They might reject it , they might turn away
My friend they might not have another day
