Act Naturally

[Jody Miller](#)

Well, they're gonna put me in the movies
They're gonna make a big star out of me
We'll make a scene about a girl who's sad and lonely
And all I gotta do is act naturallyWell, I'll bet you I'm a gonna be a big star
Might win an Oscar, you can't ever tell
Movies are gonna make me a big star
'Cause I can play the part so wellWell, I hope you'll come to see me in the movies
Then I know that you will plainly see
The biggest fool that ever hit the big time
And all I gotta do is act naturallyWe'll, make a scene about a girl that's sad and lonely
Begging down upon his bended knee
I'll play the part that I won't need rehearsing
'Cause all I gotta do is act naturallyWell, I'll bet you I'm a gonna be a big star
Might win an Oscar, you can't ever tell
Movies are gonna make me a big star
'Cause I can play the part so well
Yeah, all I gotta do is act naturally
