One Life Stand

Hot Chip

Tell me where you've been to
Nowhere that you shouldn't do
Tell me what you're good for
I can tell you something tooWhere have you been staying?
Tell me what you're playing
Hope it's not my conscious
But it keeps complainingDidn't meet you in an alley
The cats they weren't complaining
I met you in the daylight
Our vision's misbehavingI offer you my temper
With the hope that you would tame me
We built ourselves a shelter
You will always be my babyFeeling, keep on feeling, keep on feelingI only wanna be your one life stand
Keep on feeling
Tell me do you stand by your man?
Keep on feelingI only wanna be your one life stand
Keep on feeling
Tell me do you stand by your man?
Keep on feelingWishes keep remaining
Nothing will contain it
A balloon where they're escaping
There's nothing but a playthingMoments keep us guessing
And lead us from temptation
But better to embrace them
And measure our relationI only wanna be your one life stand
Keep on feeling
Tell me do you stand by your man?
Keep on feelingI only wanna be your one life stand
Keep on feeling
Tell me do you stand by your man?
Keep on feelingCould this be, could this be?
I only wanna be your one life stand
Keep on feeling
Could this be, could this be?
Tell me do you stand by your man?
Keep on feelingCould this be, could this be?
I only wanna be your one life stand
Keep on feeling
Could this be, could this be?

Tell me do you stand by your man?
Keep on feeling
