

Come to Jesus

Gaither Vocal Band

Verse 1: Oh my baby when you're older

Maybe then you'll understand

You have angels to dance around your shoulders

Cos at times in life, you need a helping hand Oh my baby when you're praying

Leave your burden by My door

You have Jesus standing at your bedside

To keep you calm, keep you safe away from harm Chorus: Worry not my daughter

Worry not my son

Child, when life don't seem worth living (no)

Come to Jesus and He will hold you in His arms Verse 2: Oh my baby when you're cryin'

Never hide your face from Me

Cos I have conquered hell, and driven out the demons

(yeah) I have come with the light to set you free, set you free Chorus: Ohhh worry not my daughter

Worry not my son

Child, when life don't seem worth living (no)

Come to Jesus and He will hold you in His arms (instrumental) Verse 3: Oh my baby when you're dying

Leave a healing at His hand

Here in heaven, we will wait for your arrival

Here in heaven, you will finally understand

Here in heaven, we will wait for your arrival

Here in heaven, you will finally understand Chorus: Worry not my daughter

Worry not my son

....

Child, when life don't seem worth living (no)

Come to Jesus and He will hold you in His arms
