

Horses in the Sky

Maurice Kirya

I know, you heard it all before
but this is new, from long ago
never knew that, we would be apart

I still hear your voice, but where is your heart
we were young so we loved, chasing butterflies through the fields
the world is colder now, it was warmer then
can we go back to when we used to lay down
and watch horses in the sky

(embalasii zetala)

horses in the sky

(embalasii zetala)

horses in the sky

(embalasii zetala)

horses in the sky, watch horses in the sky—2

Although, we're far apart

I still remember, all the love we had
I was to be your king, and you where to be my queen
we were wild and free, we were free to dream
but to say goodbye, in the saddest way
a silent stand, from across the room
but your memory, lingers on
when you hear this song yeah, please remember

the horses in the sky

(embalasii zetala)

horses in the sky

(embalasii zetala)

horses in the sky

(embalasii zetala)

horses in the sky, watch horses in the sky—2

watch horses in the sky

I wanna be right where you are
oh yeah

watch horses in the sky

can we just lay down

and watch horses in the sky

can we just lay down

and watch horses in the sky
