Noah's Days

[Stealing Sheep](#)

Don't dive in 'cause we aren't meant to
Befriend you
Gone right in and we'll start our engines
Come join in
I've got oars, you've got paws to row you
You lie to

Get on our way to find another place to drain out
This raincloud

Oh no, we sailed too far from home
Oh no, yo-ho, we sailed too far from home

Don't cave in to the lights, they're shining
They're blinding
Calling you to the sea, so pretty
Don't leave me
I've got yours, you've got mine, two old songs
To die to

Get on our way to find another place to drain out
This raincloud

Oh no, we sailed too far from home (far from home, so far from home)
Oh no, yo-ho, we sailed too far from home (far from home, so far from home)
Oh no, yo-ho, we sailed too far from home (far from home, so far from home)

Run to the hills, but you haven't got any
All gone, they're all gone

Run to the tree-tops, they're on the bed on the sea
The sea

Run to the hills, but you haven't got any
All gone, they're all gone

Run to the tree-tops, they're on the bed on the sea
The sea

Run to the hills, but you haven't got any

All gone, they're all gone

Run to the tree-tops, they're on the bed on the sea
The sea
