People Like Us

Curtis Stigers

Baby I know, you hear a lot of talk
About the bad times ahead
That I'm the wrong kind of man
What you need is a doctor or a lawyer insteadWell I know that I'm not made of money
And God knows I'm a fool
But you know that
I'll always be there for youPeople like us got no business in love
Yeah, that's what the people say
But people like them got nothing better to do
Than chase our dreams awayWell I've finally found you and I won't let go
They say it's never gonna last
But baby, what do they know
When they say people like us got no business being in loveBaby I know, things may not get better
Before they get worse
They've all got their reasons why we can't survive
They'll quote you chapter and verseWell I know that this life isn't easy
And God knows times are hard
But you know
That I'll always take care of youYeah people like us got no business in love
Oh, that's what the people say
But people like them got nothing better to do
Than chase our dreams awayWell I've finally found you and I won't let go
They say it's never gonna last
But baby, what do they know
When they say people like us got no business being in loveI wanna made make them all look foolish, yeah
And in the end, we're gonna make them eat their words, oh yeahWell I've finally found you and I won't let go
They say it's never gonna last
But baby, what do they know
When they say, people like us got no business, oh
People like us, yeah oh baby
People like us got no business being in loveOh oh, what do they know
Oh oh, people like us baby
People like us got no business in love
