My Friends Are Influential

InMemory

Make a move
I've got my bed to lose
Three words to wrap my kid
We made you
Sunglasses on at night
Spent the night so open wide
So I made my bedroom to terrorize
To collect youIf I go down
We all go down
Get on your knees
Jump to the ground
Don't make a move
Don't make a sound
If I go down
We all go down
Get on your knees
Jump to the ground
Don't make a move
Don't make a soundBreak yourself
This is a tear-away
We've got to shoot them up
In the place
Because that's how we go out
Don't think to scream or shout
We're taking a spare chance
We get paidIf I go down
We all go down
Get on your knees
Jump to the ground
Don't make a move
Don't make a sound
If I go down
We all go down
Get on your knees
Jump to the ground
Don't make a move
Don't make a sound'Cause your stuck
(You're stuck)
On fire

(Fire)
Jump in the car and get away
We got caught in the place
'Cause you're stuck
(You're stuck)
On fire
Just sip the gas
And don't look back
Just hold your guards and to attack
You're stuck
(You're stuck)
On fireOh God, oh God, oh God, oh God
What you get when you put when we're gone
I think you want to stay on the seat
Another fire, another body, another body
Oh God, oh God, oh God, oh God
What you get when you put when we're gone
I think you want to stay on the seat
Another bodyIf I go down
We all go down
Get on your knees
Jump to the ground
Don't make a move
Don't make a sound
If I go down
We all go down
Get on your knees
Jump to the ground
Don't make a move
Don't make a sound'Cause you're stuck
(You're stuck)
On fire
(Fire)
Jump in the car and get away
We got caught in the place
'Cause you're stuck
(You're stuck)
On fire
Just sip the gas
And don't look back
Just hold your guards and to attack
Cause you're stuck
On fire
