

The Edge

Eiffel 65

I've been to the Edge
and I've been to the edge
yes I been to the edge
I've been to the edge And God knows if I look down
look down I've been to the Edge
and I've been to the edge
yes I been to the edge
I've been to the edge And God knows if I look down
look down I've been to the Edge "Bridge" I've been to the Edge
and I've been to the edge
yes I been to the edge
I've been to the edge And God knows If I look down
look down I've been to the Edge
and I've been to the edge
yes I been to the edge
I've been to the edge And God knows If look down
look down And just repeat until over
