Looker

The Sidekicks

Look, you little looker
As you loft about the town
You lucky little looker
You got us plain folks down
But I know about your soul
And I know where lost souls goAnd I'll watch cause I'm a watcher
And us watchers we never be
But do tell me you healthy looker
Just how wonderful you've been
Cause I know about your soul
And I know where lost souls goOur luck is gonna strike you down
Our luck is gonna strike you downSo die you healthy looker
And all us folks will gather round
And though you're so damn good looking
We're gonna stick you in the groundAnd you'll go, Lord knows you'll go
To a place where lost souls goOur luck is gonna strike you down
Our luck is gonna strike you down
Our luck is gonna strike you down
Our luck is gonna strike you down
