Rest My Head

7 Year Bitch

Left you, just you?
(Smoke screen in your shaky ground)And I can rest my head
When I feel the need it's just I'm not around
So quit your crying and your complaining
You got explaining to do
I'm sick of trying and I'm blaming
You got it coming to youSo look at now, baby
(And all is coming in[unverified])
You wipe your tears
Don't you pull this crap with me now
I've known you too many years
Am I crying? Just relax
I'll knock you out here today
Gone tomorrow, fly away
Go play, go playAnd I can rest my head
When I feel the need it's just I'm not around
So quit your crying and your complaining
You got explaining to do
I'm sick of trying and I'm blaming
You got it coming to youSo look at now, baby
(And all is coming in[unverified])
You wipe your tears
Don't you pull this crap with me now
I've known you too many years
Am I crying? Just relax
I'll knock you out here today
Gone tomorrow, fly away
Go play, go play'Cuz when it comes around
It goes around, around, around, around
And when it comes around
It goes around, around, around, around
And it's never, never, never
Never, never, never, never
Gonna stopAnd I can rest my head
When I feel the need
It's just I'm not around
Never, never, never
Never, never
