Street Named Desire
Music & Lyrics by Goldwyn Thandrayen

She's a street named desire,
She brings light to the day,
She will help all the helpless,
She will promise the world.
If there's something that you want,
We have something that you need,
everything you see here you can have it.
Give me all you have,
just everything you have,
everything you own and i will take it.
I'll help you with your find,
there's something to be found,
This needle will be fine,
here you can use it.
Trust me with your life,
You'd be better if you had,
Now this is goodbye.
She's got no body rhythm
She's got no body rhythm
She's got no body rhythm
It is insane
She's got no body rhythm
She's got no body rhythm
She's got no body rhythm
It's crazy insane
Street named desire,
it's one of it's kind
Light makes is darker,
it's darker inside
Street named desire
it's blinding my sight
Smoke makes it clearer
it's clearer at 9.
Oh Hello good sir, so you're back again, may i interest you in some
hopes and dreams
All i want in return is everything!

Street named desire,
it's one of it's kind
Light makes is darker,
it's darker inside
Street named desire
it's blinding my sight
Smoke makes it clearer
it's clearer at 9.
Street named desire,
it's one of it's kind
Light makes is darker,

it's darker inside
Street named desire
it's blinding my sight
Smoke makes it clearer
it's clearer at 9.
