

# All I Have

## Haste the Day

The beauty in your eyes still sustains me  
And I know if I were to spit in your face You would take me back  
You would love me  
You would take me back  
I know you would love me If I were to stab you in the heart  
You would bleed for me if it made me happy  
If I were to stab you  
You would bleed for me I am nothing that's of worth to you  
Take all I have  
Though I may never understand it  
I won't stop believing You offer me another chance  
A new solution  
An' I don't understand it  
But I won't stop believing There is nowhere I would rather be than in your arms  
You've proven time and again who you are I continue to run away  
But you're right here  
You take me back  
You're right here I am nothing that's of worth to you  
Take all I have  
Though I may never understand it  
I won't stop believing You offer me another chance  
A new solution  
An' I don't understand it  
But I won't stop believing I am nothing that's of worth to you  
Take all I have  
Though I may never understand it  
I won't stop believing You offer me another chance  
A new solution  
An' I don't understand it  
But I won't stop believing
