Where Does a Body End?

Swans

The future's leaking through a shut lead door
In the ruins of a city under the forest floor.
Your naked body's buried in a vacant field
What does your body feel nowThe air is black and has no oxygen
The bodies in the river float beneath the sun
Transparent skin it shines a light from deep within
Where does your body beginThe stars are hidden by a mirrored sky
And darkness disappears behind reflected light
Perception is a distance in a closed-in space
How will your body escapeThe crowd is feeling you inside your head.
Your imagination's canceled by its opposite
And every possibility's been proved untrue
Now is your body you
