

# Dancing Through Sunday

[AFI](#)

Will you join me in this dance, dance of misery  
Cradled in imposs impossibility?  
Swooning, I am swept away  
Swept off my feet, with step by step by step  
We take the lead as drop by drop, start to bleed(Oh, we dance in misery)  
And we dance on and we dance on  
(Oh, we dance in misery)  
All lost in the arms of our misery, oh  
(Oh, we dance in misery)  
And we dance on and we dance on  
Swept off our feet by our misery, we're swept into shadows Will you lend yourself to beauty that will horrify?  
Let me hide within your black, the still inside your eyes  
Deafened, caught within a cry  
So sensual as step by step by step I seperate  
As breath to breath, as I suffocate(Oh, we dance in misery)  
And we dance on, and we dance on  
(Oh, we dance in misery)  
All lost in the arms of our misery, oh  
(Oh, we dance in misery)  
And we dance on, and we dance on  
Swept off our feet by our misery, we're swept into shadows An' so who will follow? Who is the lead?  
I know I'll leave a stain because I bleed  
As we dance, we all dance  
We all have no chance in this horrid romance I quit  
(Oh, we dance in misery)  
And we dance on and we dance on  
(Oh, we dance in misery)  
All lost in the arms of our misery, oh  
(Oh, we dance in misery)  
And we dance on and we dance on  
Swept off our feet by our misery, we're swept into shadows  
Swept off our feet by our misery, we're swept into shadows  
Yeah!
