

Defaced (2009 Remastered)

Nothingface

Little boy, come play with me, go hide from me, then I'll seek you

He tries to find me, can he hear me?

My uncle touched me, run away from this Culture, I'll try more

Culture, do it better hate more

Culture, scream once and push it

Culture, threw it out the door

Culture, talk shit fuck it do it every day

Culture, one time, why it defaces me While I wonder, come all so closer, you want to fuck me, try and fuck me

I scream in pleasure, I scream to nothing, I want to die now, run away from this (repeat chorus)
