

Last Chance

Limp

Here's the situation
came to our senses just in time
Got a mind, gotta use it right this
time
Figured out the hard way
Tired and failed nine times, here
comes ten
Got a mind, gotta get it right this
time
Got a mind, gotta get it right this
time
Last chance to save yourself from me
Or change your policy
Did you read the fine print?
Did you happen to notice all those
lies?
Well you should have it comes as no
surprise
What I'm tring to tell you
Thought we'd never see through, Well
surprise
Got a mind, gotta put it hard to you
Got a mind, gotta put it through
your heart
