Burn the World

Seether

Walking on water
Like you're the martyr
You can't deceive us all
Touch me and plead me
Lance me and bleed me
You can't deceive it allAnd tell me you love me
Worship and need me
Tell me you want it all
'Cause we could be married
Kids in a carriage
We could of have had it allBut you let the world burn down
You let the world burn down
You let the world burn down
You let the world burnI'll never belong to this world that you cling to
I'll never believe at all
Your tongue says you want to
Your mouth says you need to
You cannot have it allSo tell me you love me
Never would leave me
Tell me you want it all
We'll never be happy until you forgive me
I should just end it all[x4]Don't let the world burn down
Let the world burn down[x3]You let the world burn down
Let the world burn downYou let the world burn down
Don't let the world burn down
You let the world burn down
Don't let the world burn
