

# The Moon Is Full

[\*\*Albert Collins\*\*](#)

I said the moon is full, I feel my love comin' down  
I said the moon is full, I feel my love comin' down

    You see I met this little girl

I don't think I'm gonna wanna, wanna, leave this townAll my friends call me crazy, you just don't know how I  
    feel inside

    All my friends call me crazy, you just don't know how I feel inside

    You know I love this little girl

'Cause she's got the little pretty, pretty brown eyesGonna take that train in the mornin', I think I'm gonna go  
    back home

    Gonna catch that train in the mornin' y'all, I think I'm gonna go back home

    And I know that my little girl know

Oh that I won't be gone, I won't be gone 'till dawnIf I miss that train, I think I'm gonna to have to hitch-hike  
    If I miss that train in the mornin' y'all, I guess I'm gonna have to hitch-hike  
    And I'll let my little girl know, I'll just be gone, I'll be gone overnight
