The Definition of Sound  
Vibrations that travel through the air  
Or another media  
And can be heard when they reach another person's ear  
That's not the only Definition of Sound  
There's a sound of one's voice that let's you know just want they feel There's a sound of Pain a sound of Joy a  
sound of strength a sound of Love a sound of Desperation and a sound of victory
