## **One Step**

## **Dead Letter Circus**

I hate when you come around I hate what I've become now I hate that we compromised Just to grow closer Say that you're gonna go See I can't take it anymore I just can't find a way I won't lieOne step away from here and just a moment to goIs it ok if I close my eyes As we go further I want escape from the compromise As we come closer Say that you're gonna go See I can't take it anymore This is my escape One more lieOne step away from here and just a moment to goIt's just a moment One step away...Just can't find a way
