Is It True

David Parmley

Listen to the talk that's going around the town
Everywhere you go they're spreading it around
Saying that you've gone and found another one
Is it true my love? Oh ohWhat about the ring you gave me yesterday
Is it fair for me to throw it all away?
As you said goodbye if you have no lie
Is it true my love? Oh ohDon't you know, don't you know
You're making me blue?
Baby, baby say it isn't
Say it isn't trueUp and down the street the story is the same
Everyone I meet is whispering your name
Saying that you've gone and found another one
Is it true my love? Oh ohSaying that you've gone and found another one
Is it true my love? Oh ohDon't you know, don't you know
You're making me blue?
Baby, baby say it isn't
Say it isn't trueUp and down the street the story is the same
Everyone I meet is whispering your name
Saying that you've gone and found another one
Is it true my love? Oh oh
