Troubled Times

Hayden

I don't know whats on your mind... most of the time
But i know your love... is the lonely kindFigure out what it is you need... then get back to me
Then i'll get on my knees... and beg you pleaseI don't have to understand
I don't want to misunderstand... misunderstand you
If it's not one thing it is another
These sure are troubled times
If it's not one thing it is another
These sure are troubled times
If it's not one thing it is another
These sure are troubled timesI don't know what happens next... there's a long long list
As the silence drips... all the way through our tripI don't have to understand
But i don't want to misunderstand... misunderstand you
If it's not one thing it is another
These sure are troubled times
If it's not one thing it is another
These sure are troubled times
If it's not one thing it is another
These sure are troubled timesThese sure are troubled times
Troubled times
Troubled times
These sure are troubled times
Yeah these sure are troubled times
