

# Troubled Times

Hayden

I don't know what's on your mind... most of the time  
But I know your love... is the lonely kind  
Figure out what it is you need... then get back to me  
Then I'll get on my knees... and beg you please  
I don't have to understand  
I don't want to misunderstand... misunderstand you  
If it's not one thing it is another  
These sure are troubled times  
If it's not one thing it is another  
These sure are troubled times  
If it's not one thing it is another  
These sure are troubled times  
I don't know what happens next... there's a long long list  
As the silence drips... all the way through our trip  
I don't have to understand  
But I don't want to misunderstand... misunderstand you  
If it's not one thing it is another  
These sure are troubled times  
If it's not one thing it is another  
These sure are troubled times  
If it's not one thing it is another  
These sure are troubled times  
These sure are troubled times  
Troubled times  
Troubled times  
These sure are troubled times  
Yeah these sure are troubled times
