

# Fool Me

Inna

(Pre-chorus)

And now summer is gone and we are drunk in love  
But you're going away Boy, don't get me wrong, I'm just a girl in love

And I want you to stay (Chorus)

So just fool me, fool me, fool me

That is all I'm asking for

Here to watch your body temper cause you won't be here no more

Can't you see my heart is beating like it never did before?

You're the one (ooh) (Refrain)

Tried to keep my heart from falling, yeah

Ooh, no way to resist it, no (Pre-chorus)

And now summer is gone and we're drunk in love

But you're going away

Boy, don't get me wrong, I'm just a girl in love

And I want you to stay (Chorus)

So just fool me, fool me, fool me that is all I'm asking for

Here to watch your body temper cause you won't be here no more

Can't you see my heart is beating like it never did before?

You're the one (ooh) (Bridge)

I am dreaming of a life where I will let you know

Why I love you so

Cause I'm melting in your eyes

I can let you know, why can't I let you go (Chorus)

So just fool me, fool me, fool me

That is all I'm asking for

Here to watch your body temper cause you won't be here no more

Can't you see my heart is beating like it never did before?

You're the one (ooh)
